- ✔ **Air-Cooled Design**  
Air-cooled refrigeration system operates with R-290a refrigerant for commercial ice production.
- ✔ **Warranty Coverage**  
It includes a 1-year warranty by the manufacturer.

## PRODUCT OVERVIEW

The ChefPro Series Ice Maker Machine is designed for bars, cafes, restaurants, and commercial kitchen beverage stations. It produces up to 360 lb of cube ice every 24 hours with 156 ice trays and a production capacity of 15,000 pieces per day. The unit features air-cooled refrigeration with R-290a refrigerant and touchscreen controls. Dimensions: 28.7" (L) x 22" (W) x 39.3" (H).

The ChefPro Series Ice Maker Machine features stainless steel construction with a silver finish for commercial food service environments. It includes a touchscreen control panel, auto self-cleaning function, and freestanding installation design. The unit operates on 110 V electric power with air-cooled refrigeration. A 250 lb storage bin supports commercial beverage service during peak hours.

The ChefPro Series Ice Maker Machine is equipped with 156 ice trays for cube ice production in restaurant and cafe operations. The unit supports up to 360 lb of ice production every 24 hours and includes 6-8 hours ice retention time inside the storage bin. The air-cooled refrigeration system operates with R-290a refrigerant at ambient temperatures up to 95°F.

The ChefPro Series Ice Maker Machine includes a touchscreen control panel for ice production settings and monitoring in commercial kitchen applications. Stainless steel construction supports daily restaurant and bar use, while the freestanding configuration fits beverage stations and prep areas. It includes a 1-year warranty by the manufacturer. Dimensions: 28.7" (L) x 22" (W) x 39.3" (H).
