 Wall-mount installation supports efficient space use in commercial kitchen utility areas.
- Standard Centers**
 8" faucet centers align with common commercial sink configurations.
- Integrated Safety Feature**
 The included 1/2" NPT vacuum breaker supports backflow prevention requirements.
- Brass Construction**
 Heavy-duty brass material supports routine service sink operation.
- Controlled Operation**
 Lever handles with quarter-turn Eterna cartridges support direct water control.
- Manufacturer Warranty**
 It includes a 1-year warranty by the manufacturer.

PRODUCT OVERVIEW

The ChefPro Series service sink faucet is a wall-mount faucet designed for commercial kitchens and utility areas requiring a dedicated water outlet for service and cleaning tasks. Constructed from heavy-duty brass with a polished chrome finish, it supports routine use in foodservice environments.

This faucet features 8" faucet centers, supporting compatibility with standard commercial service sinks. The wall-mount installation style supports organized sink layouts while keeping surrounding surfaces clear for cleaning activities.

An 11" wall-to-outlet center provides measured water reach over service sinks. Lever handles support manual water control, and quarter-turn Eterna cartridges with spring checks are included as part of the internal configuration.

The faucet includes a male hose connection and a 1/2" NPT vacuum breaker to support backflow control requirements. It is part of the ChefPro Series and includes a 1-year warranty by the manufacturer.
