WARRANTY

Parts & Labor: 2 Years

Compressor: 6 Years

SPECIAL FEATURES

- ✔ **Frozen Storage**
Temperature range of -8°F to 0°F supports frozen food storage for ice cream, pizza, seafood, vegetables, fruits, appetizers, and snacks.
- ✔ **Stainless Steel Build**
Stainless steel interior and exterior with silver finish supports commercial kitchen use and food storage applications.
- ✔ **Digital Controls**
Electronic temperature control with digital controller operates on 115 V, 1 Phase, and 60 Hz power.
- ✔ **Mobility Support**
Four preinstalled heavy-duty casters with brakes support movement and positioning in commercial kitchen layouts.
- ✔ **Certified Operation**
ETL Listed, ETL Sanitation Listed, NSF Approved, and DOE Compliant for commercial food handling applications.
- ✔ **Glass Door Display**
Two triple-layer tempered glass doors with LED lighting provide interior visibility for restaurant and food handling operations.
- ✔ **Adjustable Shelving**
Eight adjustable epoxy coated steel wire shelves support organized storage with 150 lb capacity per shelf.
- ✔ **Ventilated Cooling**
Ventilated cooling system includes a high performance compressor, automatic defrost, and anti-corrosion coated evaporator.
- ✔ **Service Access**
Bottom-mounted condenser design supports easier service access and cleaning in restaurant environments.
- ✔ **Warranty Coverage**
Includes 2 years parts & labor warranty with 6 years compressor warranty and locks & keys included.

PRODUCT OVERVIEW

The Platinum Frost Series commercial reach in freezer merchandiser is designed for restaurants, cafés, and foodservice operators requiring high-capacity frozen storage and display in a commercial kitchen. It supports storage of ice cream, pizza, seafood, vegetables, fruits, and packaged snacks.

Constructed with a stainless steel exterior and interior in a silver finish, the unit features two swing glass doors with left and right hinge configuration. The triple-layer tempered glass doors and LED interior lighting support clear visibility of stored items.

The freezer provides a 49 cu.ft capacity and operates within a temperature range of -8°F to 0°F through an electronic digital temperature controller. It measures 54.4" (W) x 31.5" (D) x 83.3" (H) and includes eight epoxy-coated steel wire shelves, each rated for 150 lbs.

It runs on 115 V, 60 Hz, single-phase electric power using R290 hydrocarbon refrigerant with a bottom-mounted condenser and high performance compressor. Additional features include ventilated cooling, automatic defrost, self-closing doors with a 90° stay-open function, preinstalled heavy-duty casters with brakes, required certifications, and a 2-year parts and labor warranty with 6 years on the compressor.
