SPECIAL FEATURES

- ✓ **High Grinding Capacity**
Processes up to 264 lb per hour, suitable for steady daily prep.
- ✓ **Powerful Gear-Driven Motor**
1.1 HP motor delivers consistent grinding performance.
- ✓ **Corrosion-Resistant Construction**
Anodized aluminum alloy and stainless steel resist rust, salt, and acid exposure.
- ✓ **Dual Plate Versatility**
Includes 4.5 mm and 8 mm plates for varied grinding textures.
- ✓ **Enhanced Safety**
Waterproof emergency stop switch adds operational control.
- ✓ **Commercial Certifications**
cETLus and cUL listings confirm compliance with safety standards.

PRODUCT OVERVIEW

The PrepMaster Series Electric Meat Grinder is built for light to medium-duty grinding in small kitchens and countertop spaces. Constructed from anodized aluminum alloy and stainless steel, it offers rust, acid, and salt resistance for commercial food preparation environments.

Powered by a 750 W (1.1 HP) gear-driven motor, this unit delivers up to 264 lb per hour. Operating on 110 V, 60 Hz, single-phase power, it provides steady output with intuitive controls for simple operation.

The grinder includes two grinding plates (4.5 mm and 8 mm) and a star knife, offering flexibility for different textures. Its #12 hub size supports efficient meat processing for modern kitchen applications.

Measuring 24" W x 10" L x 18" H and weighing 48.5 lb, the PMEMG264 features a waterproof emergency stop switch for added safety. It is cETLus and cUL listed and comes with a 1-year parts and labor warranty.
