WARRANTY

1 Year Limited Warranty

SPECIAL FEATURES

- ✓ Adequate Capacity**
 With a 27 qt capacity and one full-size table pan, this food warmer holds substantial portions for commercial kitchen, buffet, or catering service.
- ✓ Electric Operation**
 Single-phase electric operation at 120 V and 1200 W supports use in standard commercial kitchen electrical setups.
- ✓ Manufacturer Warranty**
 It includes a 1 year limited warranty by the manufacturer for coverage in commercial foodservice environments.
- ✓ Adjustable Temperature Control**
 Thermostatic control supports temperature settings between 97 °F and 172 °F for holding prepared foods at service temperature.
- ✓ Compact Countertop Design**
 At 9 in product height and countertop installation type, it supports placement on foodservice counters with limited space.

PRODUCT OVERVIEW

The ChefPro Series Countertop Food Warmer is an electric food warming unit designed for chefs and operators in commercial kitchens, buffets, hotel restaurants, and catering environments. It provides controlled heat holding for prepared foods during service.

This countertop food warmer is constructed from stainless steel with a silver finish, supporting ease of cleaning and durability under frequent use. It holds a 27 qt capacity with one full-size table pan, suitable for holding larger portions of hot menu items. The interior dimensions measure 12 in width × 20 in depth × 6.5 in height, supporting typical foodservice pan sizes.

The unit operates on single-phase electric power with a voltage of 120 V, a current draw of 10 A, and 1200 W of warming power. A thermostatic control type allows adjustment of the temperature range from 97 °F to 172 °F to keep foods at service temperatures. A NEMA 5-15P plug design and a 5 ft power cord length support straightforward countertop installation. The unit measures 9 in in height, supporting compact placement in commercial kitchen layouts.

It includes a 1 year limited warranty by the manufacturer for standard service coverage.
