SPECIAL FEATURES

- ✓ **Focused Washing**
One-bowl layout fits essential cleaning steps in compact commercial prep spaces.

✓ **Added Cleanliness**
6.5" backsplash height helps reduce wall splashes during food handling.

✓ **Foodservice Compliance**
NSF Certification supports use in regulated restaurant environments.
- ✓ **Durable Build**
Stainless steel construction adds long-term durability useful for restaurant and café washing tasks.

✓ **Level Adjustment**
Thermoplastic bullet feet provide height adjustments on uneven back-of-house floors.

✓ **Warranty Protection**
Backed by 1-year limited warranty for added support.

PRODUCT OVERVIEW

The ChefPro Series CPUBS-12X24-GR stainless steel sink table is designed for restaurants, cafés, and commercial kitchen prep areas that require a dedicated washing space. It features one bowl and one compartment for basic food handling tasks. Stainless steel material supports a dependable structure for daily use. The unit includes a 6.5" backsplash that helps maintain cleaner walls in busy prep zones.

Built with stainless steel legs for added stability, this freestanding unit fits operations needing flexible placement. Adjustable thermoplastic bullet feet assist level positioning on uneven floors commonly found in back-of-house spaces. Its layout supports equipment alignment in compact service areas. The 1-bowl design fits focused washing tasks in tight commercial environments where space efficiency is important.

This commercial sink table measures 24" (L) x 12" (W), suitable for small prep stations and washing zones. NSF-certified construction supports foodservice compliance in commercial kitchens, and the unit is backed by a 1-year limited warranty for added support.
