1 Year Parts & Labor

SPECIAL FEATURES

- ✔ **Compact Output System**
The unit supports pizza capacity designed for 10-inch pizzas with continuous conveyor operation.
- ✔ **Adjustable Belt Speed**
It offers 7 belt speed settings for controlled cooking flow through the chamber.
- ✔ **Countertop Installation**
It features a compact 41 in (L) x 18 in (D) x 19 in (H) countertop installation format for commercial kitchen use.
- ✔ **Dual Heating Control**
It includes independent top and bottom heating control with 4 heating elements (2 top and 2 bottom).
- ✔ **Low Power Operation**
It operates on 120 V, 60 Hz with 1700 W power rating and 15 A single phase input.
- ✔ **Warranty Coverage**
It includes a 1-year warranty on parts and labor from the manufacturer.

PRODUCT OVERVIEW

The ProKitchen Series Electric Conveyor Oven is a countertop commercial kitchen cooking unit designed for pizzerias, cafés, and quick-service food operations requiring continuous baking output. It is constructed with stainless steel material in a silver finish and operates on electric power type with 120 V, 60 Hz input. The unit delivers a maximum temperature of 500°F with radiant heating source for controlled cooking performance in commercial kitchen environments.

The conveyor system features a 10.5 in belt width and 57.5 in belt length, supporting consistent food movement through the heating chamber. It includes 7 belt speed settings and manual control type for operational adjustment during cooking cycles in commercial kitchen workflows.

The cooking area measures 11.8 in (L) x 17.7 in (D) x 3.15 in (H), supported by independent top and bottom heating control with 4 heating elements (2 top and 2 bottom). It includes a pull-out crumb tray and detachable feeding tray for loading and residue collection during use.

The unit measures 41 in (L) x 18 in (D) x 19 in (H) and weighs 56 lb. It operates at 1700 W, 15 A, single phase power with NEMA 5-15P plug type. It includes 4 legs for installation support, CE certification, and a 1-year warranty on parts and labor for commercial kitchen applications.
