1 Year Warranty

SPECIAL FEATURES

- ✓ Easy Product Access**
 The open-display format removes the need to open doors, allowing customers and staff to retrieve chilled items quickly during busy service periods.
- ✓ Consistent Chill Range**
 A temperature range of 30.2 to 44.6 degrees Fahrenheit keeps dairy, beverages, and prepared foods within safe holding temperatures throughout the day.
- ✓ Lower-GWP Refrigerant**
 R-290 refrigerant is a low global-warming-potential option that aligns the unit with current environmental guidelines for commercial kitchen refrigeration.
- ✓ Certified for Commercial Use**
 ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications confirm the unit meets electrical safety, sanitation, and federal energy efficiency requirements.
- ✓ Covered for One Year**
 A 1-year warranty is included, giving buyers a defined service period from the date of purchase for this commercial merchandiser.
- ✓ Simple Floor Placement**
 Freestanding installation with adjustable leg levelers means the unit requires no built-in construction and levels on standard commercial kitchen flooring without modification.

PRODUCT OVERVIEW

The Frigomax Series 63" Horizontal Air Curtain Merchandiser is an open-display refrigeration unit designed for restaurants, convenience stores, delis, and other commercial kitchen or food retail environments that need accessible, high-visibility cold storage for grab-and-go items.

The unit operates on fan cooling with R-290 refrigerant, a low-GWP refrigerant choice that meets current environmental standards. It maintains a temperature range of 30.2 to 44.6 degrees Fahrenheit, making it suitable for chilled beverages, dairy, prepared foods, and similar perishables. Power draw is rated at 890 watts and 15.2 amperes at 110 volts, 60 hertz, keeping operating costs straightforward to estimate.

The 14.4 cubic foot interior provides usable display space for a wide assortment of chilled items, while the open-display format eliminates door handling and keeps products within easy reach of customers or staff. LED lighting illuminates the display case interior without adding significant heat load. The freestanding installation means no built-in construction is required, and leg levelers allow the unit to sit stably on uneven flooring.

Exterior dimensions measure 33.1" (L) x 63" (W) x 46.3" (H), giving operators a clear footprint for floor planning. The unit carries ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications, confirming it meets recognized electrical safety, sanitation, and energy efficiency standards. A 1-year warranty is included with the unit.
