 Vertical conveyor design supports controlled bun toasting and grilling processes.
- Butter Roller**
 Integrated butter roller system supports bun preparation in food service applications.
- Warranty Coverage**
 It includes a 1-year limited warranty by the manufacturer.

PRODUCT OVERVIEW

The ChefPro Series Vertical Conveyor Bun Grill Toaster is designed for cafés, quick service restaurants, and commercial kitchen breakfast stations. It features a stainless steel construction with a vertical conveyor design and butter roller system. The unit operates on a 240V, 1 phase electrical supply.

The toaster supports a temperature range of 200°F to 500°F with infinite temperature control settings for adjustable operation. It delivers a production capacity of up to 865 slices per hour, suitable for medium-volume commercial kitchen service. The radiant heating system supports consistent toasting performance.

The unit measures 21.63" (L) x 16.31" (W) x 28.31" (H) and is built as a countertop installation model. It includes a conveyor loading system with bun slide for controlled product movement. Stainless steel construction supports durability in food preparation environments.

The ChefPro Vertical Conveyor Bun Grill Toaster operates with an 11.6-amp electrical load and a 2,780W heating system. It includes a NEMA 6-20P plug and operates at 60 Hz. The unit is UL Certified, CE Certified, cULus Listed, and UL Sanitation Listed. It includes a 1-year limited warranty by the manufacturer.
