WARRANTY
1 Year Warranty

SPECIAL FEATURES

- Broad Frozen Range**
 A temperature range of -0.4°F to -8°F accommodates a wide variety of frozen foods commonly stored in a commercial kitchen or retail display setting.
- Compact Floor Footprint**
 At 24.8" wide and 28.7" deep, the freestanding cabinet fits into tight wall spaces or service lanes without major floor plan changes.
- Lower Energy Draw**
 Running at 600 watts and 6 amperes on a standard 110V circuit, this freezer works within the electrical capacity of most existing commercial kitchen outlets.
- Flexible Interior Layout**
 Adjustable shelves inside the single 16.3 cu ft section allow staff to reconfigure storage depth and spacing to match different frozen product dimensions.
- Recognized Safety Certifications**
 ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications confirm the unit meets established commercial food safety and energy efficiency standards.
- Included Coverage**
 A 1-year warranty is included with every unit, providing a defined period of manufacturer support after purchase.

PRODUCT OVERVIEW

The Frigomax Series single-door glass door merchandising freezer is designed for restaurants, convenience stores, and commercial kitchens that need upright frozen product display in a compact footprint.

This vertical display freezer holds 16.3 cubic feet of frozen inventory and maintains a temperature range of -0.4°F to -8°F, keeping frozen goods at consistent holding temperatures throughout a service shift. The frost-free defrost system and R290 refrigerant reduce manual maintenance while supporting energy-conscious operation. At 600 watts and 6 amperes on a 110V/60Hz circuit, the unit draws a manageable load suited to standard commercial kitchen outlet configurations.

The cabinet measures 28.7" (L) x 24.8" (W) x 79.1" (H), making it a freestanding unit that fits into tight floor spaces along a wall or service counter. The right-hinged, self-closing swing glass door with LED interior lighting allows staff and customers to view frozen contents without opening the door, reducing cold-air loss during browsing. Adjustable shelves inside the single section let operators configure storage to fit a range of frozen product sizes.

The bottom-mounted compressor keeps the mechanical components accessible for routine servicing without disrupting the display area. This unit carries ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications, meeting widely recognized commercial food service safety and energy standards. A 1-year warranty is included with each unit sold individually.
