WARRANTY

10-Year Panel, 1 Year
Door Parts

SPECIAL FEATURES

- ✓ **Robust Build**
24-gauge white galvanized steel panels deliver strength and long-lasting performance for commercial use.
- ✓ **Advanced Insulation**
4-inch polyurethane panels with R-28 cooler / R-33 freezer thermal resistance maintain steady temperatures while reducing energy loss.
- ✓ **Frost Prevention**
Freezer section features a heating wire and pressure relief vent to reduce ice buildup and maintain proper air balance.
- ✓ **Eco-Friendly Panels**
All panels are CFC- and HFC-free, supporting secure assembly and eco-friendly operation.
- ✓ **Warranty Coverage**
10-year panel warranty and 1-year door parts warranty provide dependable long-term support.
- ✓ **Stable Power Supply**
Hardwired connection provides consistent performance, and dual cooler and freezer sections maintain balanced temperature distribution for optimal product preservation.
- ✓ **Secure Access**
Solid swing doors with keyed locks, flush-mounted and self-closing design protect stored items and maintain stable internal temperatures.
- ✓ **Easy Installation**
Modular cam-lock panels with tongue-and-groove design allow fast assembly.
- ✓ **Durable Flooring**
Floor withstands heavy use while remaining hygienic and easy to clean.

PRODUCT OVERVIEW

The PolarBox Series Walk-In Freezer & Cooler Combo Box is ideal for commercial kitchens and food storage facilities requiring both freezing and cooling in one compact setup. The freezer section measures 59 inches in length for low-temperature storage, while the cooler section measures 177 inches for standard refrigeration. Overall dimensions are 20 ft (L) × 10 ft (W) × 7 ft (H), providing ample space for bulk storage.

Made in America, this commercial Walk-In Freezer & Cooler Combo Box is built from 24-gauge white galvanized steel for durability and features an floor for strength under heavy use. It includes 4-inch-thick polyurethane insulation, providing thermal efficiency with R-28 for the cooler and R-33 for the freezer section. The box operates on hardwired 208/230 V, 60 Hz, single-phase power, delivering reliable continuous performance in commercial environments.

Dual solid swing doors are keyed, self-closing, and flush-mounted to protect contents and maintain temperature stability. The freezer door includes a heating wire and pressure relief vent to reduce ice buildup and maintain consistent internal temperature. Panels feature a modular cam-lock and tongue-and-groove design, made from CFC- and HFC-free materials for secure assembly and eco-friendly construction.

The unit is UL listed in the US, NSF listed, and DOE compliant, meeting all major commercial standards. It comes complete with a condensing unit and evaporator for stable and efficient temperature control. Warranty covers 10-year panels and 1-year door parts, providing long-lasting performance in demanding commercial environments.
