1 Year Limited Warranty

SPECIAL FEATURES

- ✓ **Four Tap Dispensing**
Four taps support simultaneous draft service, accommodating multiple beverage selections in restaurant and bar environments.
- ✓ **Electronic Temperature Control**
The electronic control system maintains a 33°F to 38°F temperature range for regulated beer storage.
- ✓ **Freestanding Mobility**
The freestanding design with four casters supports flexible placement within a commercial kitchen or beverage station.
- ✓ **Three Solid Doors**
Three solid doors provide enclosed keg storage with a keyed lock for controlled access in commercial settings.
- ✓ **Automatic Defrost System**
The automatic defrost function manages frost buildup during continuous operation in foodservice applications.
- ✓ **1-Year Limited Warranty**
It includes a 1-year limited warranty by the manufacturer for commercial use.

PRODUCT OVERVIEW

The CoolEdge Series Kegerator / Beer Dispenser is a freestanding draft beer system designed for restaurants, bars, catering operations, and commercial kitchens requiring multi-keg beverage service. The exterior is constructed of stainless steel with a black finish, supporting durability in high-traffic foodservice environments. The interior is made of stainless steel, providing a surface suited for routine cleaning and organized keg storage.

This unit features 3 solid doors with a keyed lock system, supporting controlled access in shared beverage stations. The door access configuration allows structured keg placement within a standard nominal depth cabinet. It includes 4 taps, supporting multiple draft beer options for restaurant or bar service.

The temperature range operates between 33°F to 38°F, regulated by an electronic control system for consistent cold beverage storage. The refrigeration system uses R290 refrigerant and includes an automatic defrost function to manage frost accumulation during operation.

This kegerator measures 72" (W) x 27.75" (D) x 35.88" (H), providing extended counter-length coverage for beverage stations in commercial kitchens. The freestanding installation type allows placement flexibility without built-in cabinetry requirements. It is equipped with 4 casters, supporting repositioning during cleaning or layout adjustments.
