WARRANTY

1 Year Warranty

SPECIAL FEATURES

- Open-Front Visibility**
 The vertical air curtain design keeps contents fully visible to shoppers without a door, supporting faster selection in high-traffic retail or food service settings.
- Low-GWP Refrigerant**
 R-290 refrigerant is a natural, low global-warming-potential option that meets current environmental guidelines for commercial refrigeration equipment.
- Certified for Commercial Use**
 ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications confirm the unit meets recognized safety, sanitation, and energy standards for commercial food service.
- Generous Display Capacity**
 At 19.9 cu ft across a 1.83-meter display area, the cabinet holds a wide variety of refrigerated items, reducing how often staff need to restock during a shift.
- Stable Temperature Hold**
 Ventilated cooling maintains a 30.2 to 44.6 F operating range, providing consistent cold-holding conditions for beverages, dairy, and prepared foods.
- Covered After Purchase**
 The included 1-Year Warranty provides a defined service period after purchase, giving buyers a clear reference point for post-sale support on this merchandiser.

PRODUCT OVERVIEW

The Frigomax Series Vertical Air Curtain Merchandiser is a freestanding open-front display unit suited for grocery stores, convenience stores, delis, and other commercial kitchen or retail food service environments where grab-and-go refrigerated product visibility is a priority.

Built with a straight-profile cabinet measuring 27.6" (L) x 47.2" (W) x 54.9" (H), this unit offers 19.9 cubic feet of usable interior space across a 1.83-meter display run, giving operators a generous footprint for stocking beverages, prepared foods, dairy, and other perishable items without occupying excessive floor space.

The merchandiser operates on 110V/60Hz power, drawing 14.4 amperes at 920 watts, and uses R-290 refrigerant, a low-GWP option that aligns with current environmental standards. Ventilated cooling circulates air throughout the cabinet to maintain a temperature range of 30.2 to 44.6 degrees Fahrenheit, keeping contents within safe holding temperatures for refrigerated food display.

LED interior lighting illuminates displayed items clearly for shoppers, while adjustable leg levelers allow stable placement on uneven commercial floors. The unit carries ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications, and it is backed by a 1-Year Warranty.
