- ✓ **Compact Barrel Design**
Round body construction supports placement in limited space beverage service areas.
- ✓ **Low Temperature Range**
Operating range of -0.4°F to 14°F supports frozen storage conditions.
- ✓ **Hydrocarbon Refrigeration**
R600a refrigerant with direct cooling supports low-temperature operation.

PRODUCT OVERVIEW

The ProKitchen Series Barrel Merchandiser Freezer is designed for frozen beverage and ice storage applications in bars, restaurants, nightclubs, and food service establishments. The unit is constructed in painted steel with a white finish and measures 17.52" (W) x 17.52" (D) x 39.9" (H), supporting compact placement in commercial service areas.

It operates on a 115V, 1 phase electric system with 0.7A current, 70W wattage, and a 6 ft power cord fitted with a NEMA 5-15P plug. The unit supports direct cooling operation using R600a hydrocarbon refrigerant.

The storage capacity is 2 cu ft with a round barrel design and painted steel interior. It operates within a temperature range of -0.4°F to 14°F using a mechanical temperature control system for frozen storage applications.

The interior configuration includes 2 baskets with a 13.86" diameter for organized storage. The unit is fitted with 4 casters for mobility in commercial kitchen and beverage service environments. It includes a 1-year parts & labor warranty.
