PRODUCT OVERVIEW

The IceVault Series IVMR229C Merchandising Refrigerator with 9 cu ft capacity is designed for compact retail spaces, cafés, and small commercial setups requiring efficient product display. Its coated steel exterior and aluminum/stainless steel interior provide a durable structure for daily use. The glass swing door offers clear visibility, making it an ideal commercial merchandiser freezer for front-facing displays.

This merchandising refrigerator measures 63" (H) x 22" (W) x 22" (D), providing a compact footprint suitable for narrow aisles. Four adjustable PVC-coated shelves allow flexible product arrangement, while LED lighting enhances visibility throughout the cabinet. The right-hinged, self-closing door reduces open-door time, and a keyed lock limits access when needed.

Powered by a 1/3 HP compressor using R-290 refrigerant, the unit operates on 115 V, 2.88 A, 60 Hz, 1 Phase power with a NEMA 5-15P plug. Electronic controls manage temperatures from -33°F to 40°F, and the auto-defrost system handles routine frost management. Four swivel casters allow smooth repositioning during cleaning or setup.

ETL Sanitation Listed and cETLus certified, this commercial merchandiser freezer includes a 1-year parts and labor warranty plus a 1-year compressor warranty for reliable commercial performance.
