WARRANTY

1 Year Warranty

SPECIAL FEATURES

- Open-Front Access**
 The vertical air curtain design allows customers or staff to retrieve chilled items quickly without opening doors, reducing service time during busy periods.
- Efficient Footprint**
 At 35.4" wide and 54.9" tall, this freestanding unit delivers 14.7 cu ft of storage in a column-style form factor that fits tight floor layouts in a commercial kitchen or retail counter area.
- Safe Temperature Hold**
 The ventilated system maintains temperatures between 30.2 and 44.6 degrees Fahrenheit, keeping beverages, dairy, and deli products within safe holding ranges throughout service.
- Low-GWP Refrigerant**
 R-290 refrigerant is a natural hydrocarbon with a low global warming potential, and this unit is DOE 2017 Compliant, supporting energy-conscious operation in a food service setting.
- Certified for Commercial Use**
 ETL Listed and ETL Sanitation Listed certifications confirm this merchandiser meets recognized safety and sanitation standards for use in restaurants, delis, and retail food environments.
- Covered by Warranty**
 The 1-Year Warranty provides a defined period of manufacturer support, giving buyers a clear service term from the date of purchase.

PRODUCT OVERVIEW

The Frigomax Series Vertical Air Curtain Merchandiser is a freestanding open-front display unit suited for retail, deli, and food service environments where quick product access and continuous cold storage visibility are a priority.

The cabinet holds 14.7 cubic feet of refrigerated product within a footprint of 27.6" (L) x 35.4" (W) x 54.9" (H), making it a practical fit for convenience stores, grocery counters, and commercial kitchen pass-through areas without occupying excessive floor space. Leg levelers allow the unit to sit stably on uneven surfaces.

Temperature is maintained within a range of 30.2 to 44.6 degrees Fahrenheit through a ventilated cooling system, supporting safe holding of beverages, dairy, deli items, and other chilled goods. The straight side panel design keeps the display profile clean and consistent along the merchandising floor.

The unit operates at 110V, 60Hz, drawing 12.7 amperes and consuming 800 watts. It uses R-290 refrigerant, a low-GWP hydrocarbon choice that aligns with DOE 2017 energy compliance standards. The merchandiser carries ETL Listed and ETL Sanitation Listed certifications, and is backed by a 1-Year Warranty.
