GRAVO

The Weight of Good Design.

GRAVO pairs mechanical precision with purposeful form that feels compact yet unmistakably Rocket. It is the first grinder in the domestic line to carry our new design language, linking GRAVO to the Rocket family from Appartamento TCA to R 58 TUNE.

At the heart of GRAVO lies integrated weighing technology, measuring each dose in real time to ensure consistent weight-based precision.

The result is improved repeatability, cleaner workflow and a measurable difference in the cup.

SPECIFICATIONS	
SCREWLESS BURRS	Ø 63 mm
MOTOR	BRUSHLESS MOTOR
TOUCH DISPLAY	2.5 inches
DIMENSIONS	140W × 260D × 410H mm
ADJUSTABLE RPM	YES
SILENT TECHNOLOGY	YES

FEATURES

- Design by V12
- 63 mm Screwless Burrs
- Grind By Weight
- Electronic Grind Size Adjustment
- 2.5” Touch Screen Display
- Custom color side circles
