 Wire shelving design supports airflow for dry storage use in food service and retail applications.
- Adjustable System**
 Shelves adjust using split sleeves for flexible storage arrangement in commercial spaces.
- Warranty Coverage**
 It includes a 1-year limited replacement warranty by the manufacturer.

PRODUCT OVERVIEW

The ChefPro Series Chrome Wire 5-Shelf Kit is designed for commercial kitchens, retail storage areas, stock rooms, garages, and warehouse environments. It features a wire shelving structure with chrome finish and a 4-post design for organized storage applications. The unit is NSF Approved for listed commercial storage use.

The shelving kit includes five adjustable shelves constructed from steel with a chrome finish. The wire design supports airflow, making it suitable for dry storage organization in commercial kitchen and food service areas. The structure supports structured storage of supplies and equipment.

The unit measures 24" (L) x 30" (W) x 64" (H) with a vertical storage format suitable for compact and tall storage needs. It includes 1" post diameter construction with four posts providing structural support. The adjustable shelf system allows flexible positioning using split sleeves.

The ChefPro Series shelving kit includes 20 pairs of split sleeves for assembly and adjustment. It has a total weight capacity of 3000 lbs with a per-shelf capacity of 600 lbs. The unit includes a 1-year limited replacement warranty by the manufacturer.
