1 Year Warranty

SPECIAL FEATURES

- Large Bun Capacity**
 The cabinet accommodates approximately 80 buns with a 6 cm size for commercial foodservice applications.
- Wide Temperature Range**
 The adjustable temperature control knob supports temperatures from 86°F to 230°F for food holding and steaming tasks.
- Safety Protection**
 Anti-dry burning protection automatically powers off the unit when water levels are low.
- Independent Controls**
 Separate temperature and timer controls support adjustment of steaming and warming settings.
- Multi-Level Storage**
 Six shelves with 3.15" spacing provide organized placement of buns, snacks, and prepared foods.
- Commercial Features**
 The unit includes a digital LCD/LED display, LED lighting, and a 1-year warranty by the manufacturer.

PRODUCT OVERVIEW

The ChefPro Series Steamed Bun Machine is designed for restaurants, snack counters, cafés, convenience stores, and foodservice operations requiring steaming and warming of buns and prepared foods. Constructed from stainless steel with a silver finish, this unit features a four-sided glass design and a single right-hinged glass door. It measures 15.75" (W) x 15.75" (D) x 32.48" (H) and accommodates approximately 80 buns with a 6 cm size.

This electric steamed bun machine operates on 220 V power with a 2200 W heating system. Independent temperature and timer controls allow separate adjustment of operating settings, while the adjustable temperature control knob supports a temperature range of 86°F to 230°F. The timer is adjustable from 0 to 120 minutes for steaming and warming applications.

The unit features six shelves with 13.39" x 13.39" shelf dimensions and 3.15" shelf spacing for organized food placement. A 360° circulation heating system distributes heat throughout the cabinet for steaming and warming buns, snacks, and prepared foods. The machine is also specified for steaming cold cooked food.

This countertop food warmer includes a digital LCD/LED display, LED interior bulb, drawer handle, and drain pipe for daily operation. Safety features include anti-dry burning protection with automatic power-off when water levels are low. The unit includes a 1-year warranty by the manufacturer.
