SPECIAL FEATURES

- ✓ **Daily Ice Output**
Produces up to 350 lb of full cube ice every 24 hours for restaurant beverage stations and food handling operations.
- ✓ **Adjustable Thickness**
The adjustable ice thickness feature allows ice production settings to be modified according to application requirements.
- ✓ **Accessible Air Filter**
A side-located air filter is integrated into the unit design for maintenance access.
- ✓ **Digital Interface**
Digital controls and a digital display provide operating information for chefs and commercial kitchen staff.
- ✓ **Self-Clean Function**
The self-clean system supports routine cleaning procedures in foodservice environments.
- ✓ **Certified Coverage**
The unit is cETLus certified and includes a 1-year parts and labor warranty by the manufacturer along with a 5-year compressor warranty.

PRODUCT OVERVIEW

The ProKitchen Series Air Cooled Modular Ice Machine Head is designed for restaurants, cafés, bars, and commercial kitchens requiring full cube ice production. It produces up to 350 lb of ice in 24 hours and features an air-cooled condenser with R290 refrigerant. The stainless steel construction is suited for foodservice environments. Its dimensions are 17.72" (W) x 22.28" (D) x 20" (H).

The ProKitchen Series Air Cooled Modular Ice Machine Head operates on 115 V, 9.5 A, single-phase power at 60 Hz and uses a NEMA 5-15P plug. Digital controls and a digital display provide operational information during daily use. The unit is designed as a freestanding ice machine head for commercial kitchen applications.

The ProKitchen Series Air Cooled Modular Ice Machine Head produces full cube ice and includes adjustable ice thickness settings for different beverage service requirements. A side-located air filter is incorporated into the design, while the self-clean system supports routine maintenance procedures in restaurant operations.

The ProKitchen Series Air Cooled Modular Ice Machine Head features an air-cooled condenser and uses R290 refrigerant as part of the refrigeration system. The unit is certified to cETLus standards for commercial foodservice environments. It includes a 1-year parts and labor warranty by the manufacturer and a 5-year compressor warranty.
