SPECIAL FEATURES

- Clear Customer View**
 The curved tempered glass front gives customers an unobstructed view of all displayed items, supporting self-selection and reducing wait times at a serve-over counter.
- Reliable Cold Range**
 A 32 to 41 degree Fahrenheit operating range keeps perishable bakery items like sandwiches and cream-filled pastries within safe holding temperatures throughout a commercial kitchen service day.
- Energy-Conscious Refrigerant**
 The R-290 refrigerant is a low global warming potential option that aligns with current environmental compliance requirements for commercial kitchen refrigeration.
- Certified for Commercial Use**
 ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications confirm the unit meets recognized safety and energy standards for use in restaurants and food service environments.
- Efficient Power Draw**
 Running at 360 watts and 6 amperes on a standard 110V circuit, the display case fits into most existing commercial kitchen electrical setups without requiring a dedicated high-amperage line.
- Covered After Purchase**
 Each unit ships with a 1-year warranty, providing a defined period of coverage for a commercial kitchen operator investing in display refrigeration.

PRODUCT OVERVIEW

The Frigomax Series curved glass bakery display case is a freestanding serve-over counter unit designed for restaurants, cafes, and bakeries that need to display both dry and refrigerated items in a commercial kitchen setting.

The unit holds 16.6 cubic feet of product and maintains a temperature range of 32 to 41 degrees Fahrenheit, making it well suited for pastries, sandwiches, prepared foods, and other perishable bakery items. The curved tempered glass front maximizes visibility from the customer side while the stainless steel construction supports the hygiene and durability standards expected in a commercial kitchen.

Three glass shelves are included to organize merchandise at multiple levels. LED lighting mounted on top illuminates the interior evenly, helping displayed items stand out without adding excessive heat load. The unit runs on 110V at 60Hz, draws 6 amperes, and is rated at 360 watts, keeping energy consumption modest for a refrigerated display of this size.

The Frigomax Series display case uses R-290 refrigerant, a low-GWP option that meets current environmental regulations. At 52.4 inches wide, 37 inches deep, and 47.2 inches tall, the footprint fits standard front-of-house or deli counter layouts. The unit carries ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications. A 1-year warranty is included with each unit.
