PRODUCT OVERVIEW

PolarBox Series Walk-In Freezer designed for commercial kitchen, food storage, and cold room applications. Built with white galvanized steel panels and 24 gauge material type for structural strength. Includes CFC & HFC free construction with polyurethane insulation material, 4 in insulation thickness, and R-28 thermal resistance for temperature control in frozen storage environments.

This unit operates on 1 phase, 60 Hz electrical system with 208/230 V voltage and hardwired plug type connection. Built for indoor and outdoor usage in commercial refrigeration environments. Uses top mounted refrigeration type configuration for integrated cooling performance in kitchen and storage layouts.

Equipped with 1 solid door featuring keyed lock system for controlled access in commercial food storage operations. Door system uses modular cam-lock and tongue & groove hinge type construction for panel alignment. Includes self-closing mechanism, flush-mounted door design, heating wire system, and pressure relief vent for internal pressure management.

Built in 12 ft nominal width and 17 ft nominal depth configuration with 7 ft nominal height structure. Physical dimensions include 138 in width, 197 in depth, and 91 in height. Certified under UL Listed US, NSF Listed, and DOE standards. Warranty includes 10-year panel coverage, 2-year compressor & parts, 1-year door parts, and 1-year labor on refrigeration unit.
