WARRANTY

**10-Year Panel, 1-Year
Parts on Doors, 1-Year
Compressor & Parts on
Remote Refrigeration
Unit**

SPECIAL FEATURES

- ✔ **Compact Storage Design**
59" x 79" x 87" dimensions support refrigerated food storage in smaller commercial kitchen spaces.
- ✔ **R-28 Thermal Resistance**
4-inch polyurethane insulation supports temperature retention in refrigerated storage environments.
- ✔ **Solid Swing Door**
Single solid swing door with 77-inch height supports controlled access during restaurant operations.
- ✔ **Integrated Floor Structure**
Standard galvanized steel floor supports enclosed refrigerated storage applications.
- ✔ **TXV Valve System**
Thermostatic expansion valve and liquid line solenoid valve support refrigeration flow regulation.
- ✔ **Remote Refrigeration Setup**
Remote refrigeration configuration includes condensing unit and evaporator for external cooling placement.
- ✔ **Certified Commercial Standards**
UL Listed US, NSF Listed, and DOE certifications align with commercial refrigeration requirements.
- ✔ **Self-Closing Door Design**
Flush-mounted self-closing door supports organized workflow in commercial kitchen environments.
- ✔ **Cam-Lock Panel Assembly**
Modular cam-lock and tongue & groove system supports panel alignment and assembly.
- ✔ **Warranty Coverage**
Includes 10-year panel warranty, 1-year door parts warranty, and 1-year compressor and remote refrigeration unit parts warranty.

PRODUCT OVERVIEW

The PolarBox Series Walk-In Cooler is a commercial refrigeration unit designed for restaurants, cafés, and commercial kitchen food storage applications. It is constructed with white galvanized steel and supports indoor and outdoor installation environments. The unit operates with a remote refrigeration configuration and includes condensing unit and evaporator for integrated cooling operation.

The unit measures 59" (L) x 79" (W) x 87" (H) with a nominal size of 5 ft width, 6 ft depth, and 7 ft height, supporting refrigerated ingredient and food storage in commercial kitchen operations. It features 4-inch polyurethane insulation with R-28 thermal resistance for temperature retention. The electrical setup operates on 1-phase, 208/230 V, 60 Hz power with a hardwired connection type.

The door system includes one solid swing door with 77-inch height, self-closing operation, flush-mounted construction, keyed lock, and modular cam-lock tongue & groove hinge design. This layout supports organized access during restaurant food handling tasks. The unit includes a standard galvanized steel floor for enclosed refrigerated storage applications.

The refrigeration system uses thermostatic expansion valve (TXV/TEV) and liquid line solenoid valve for refrigeration flow regulation. It is constructed using 24 gauge CFC & HFC-free material and carries UL Listed US, NSF Listed, and DOE certifications. Warranty coverage includes 10-year panel warranty, 1-year parts on doors, and 1-year compressor and remote refrigeration unit parts warranty.
