CSA Sanitation Listed with a 1-year parts & labor warranty for commercial kitchen usage.

PRODUCT OVERVIEW

The ProKitchen Series Drawer Warmer is a freestanding commercial kitchen hot holding unit designed for restaurants, catering operations, and food service environments that require temperature-controlled storage of prepared food. The unit is built with heavy-duty stainless steel construction suitable for continuous commercial kitchen use.

This drawer warmer operates on 120 V, single phase power with a wattage of 1000 W and frequency of 60 Hz. It is fitted with a NEMA 5-15P plug type for standard electrical connection. The system uses manual temperature control with a temperature range of 85°F to 185°F for hot holding applications in food service workflows.

The unit features a two-drawer configuration with smooth drawer operation and integrated slides. It includes a large comfortable handle for frequent handling in commercial kitchen service conditions. Indicator lights support operational status visibility, while an easy-to-read thermometer supports temperature monitoring.

The freestanding unit measures 29.13" (L) x 23.5" (W) x 24.4" (H). It includes adjustable 4-inch legs for installation flexibility. Product weight is 110 lb and shipping weight is 141 lb. It includes a 12" x 20" x 6" stainless steel pan and carries a 1-year parts & labor warranty. The unit is CSA Sanitation Listed.
