Integrated molded handle supports lifting and placement during kitchen workflows.
- ✓ **NSF Certified**
NSF Certified for commercial food storage and handling applications.

PRODUCT OVERVIEW

The ProKitchen Series Food Pan Lid is designed for commercial kitchens, food preparation stations, buffets, and catering operations requiring secure coverage for standardized food pans. Constructed from clear polycarbonate (PC), it features a rectangular 1/3 size format suitable for compatible food pans used in commercial kitchen environments.

The lid operates within a temperature range of -40°F to 210°F, supporting cold storage and moderate heat holding applications. The clear construction allows visibility of stored ingredients while maintaining coverage during food preparation and storage workflows.

It features a smooth, non-stick surface to support handling and cleaning in commercial kitchen operations. The molded handle design supports lifting and placement during food preparation and service activities in busy kitchen environments.

The unit measures 12.8" (L) and is dishwasher safe for cleaning in commercial kitchen workflows. It is NSF Certified for food safety applications and includes a 1-year limited warranty by the manufacturer.
