SPECIAL FEATURES

- ✓ Double Waffle Plates**
 Double waffle plates support Belgian waffle preparation in restaurant and snack bar operations.
- ✓ Non-Stick Surface**
 The non-stick coating supports waffle release and routine cleaning in bakery and food stall applications.
- ✓ Safety Materials**
 The waffle maker features PTFE free, BPA free, and PFOA free construction details.
- ✓ Adjustable Temperature**
 The temperature range of 122°F to 572°F supports different waffle cooking requirements in commercial kitchens.
- ✓ Waterproof Switch**
 The waterproof switch supports operation in restaurant and food preparation environments.
- ✓ Warranty Included**
 It includes a 1-year warranty by the manufacturer for commercial kitchen use.

PRODUCT OVERVIEW

The ChefPro Series Waffle Maker is an electric countertop unit designed for restaurants, bakeries, snack bars, food stalls, parties, and family food preparation. The unit features double round waffle plates for Belgian waffle preparation. It operates with 2600 W power and a 110 V electrical connection for commercial kitchen applications.

The waffle maker features stainless steel construction with a silver and black finish. It measures 12.3" (W) x 19.68" (D) x 7.76" (H). The unit includes an anti-scald handle for handling during cooking operations in restaurant and snack bar environments.

This commercial waffle maker includes adjustable temperature control with a temperature range from 122°F to 572°F. The unit features 6 settings for cooking adjustment and double waffle plates for preparing multiple waffles during service periods. The waterproof switch supports operation in food preparation environments.

The waffle plates feature a non-stick coating for waffle release and cleaning tasks. The unit includes PTFE free, BPA free, and PFOA free construction details. Accessories include a mold and power plug for setup and operation. It includes a 1-year warranty by the manufacturer.
