**WARRANTY**  
1 Year Warranty

### SPECIAL FEATURES

- ✓ Curved Glass Visibility**  
 The curved double tempered glass front gives customers a clear, unobstructed view of refrigerated bakery items from multiple angles, supporting self-selection in restaurant and café settings.
- ✓ Stable Food-Safe Temps**  
 A 36°F–46°F operating range keeps refrigerated baked goods at food-safe holding temperatures throughout a full service day.
- ✓ Certified for Commercial Use**  
 ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications confirm the unit meets recognized safety, sanitation, and energy standards required in commercial food service operations.
- ✓ Easy Cleaning Access**  
 The front glass panel swings upward, allowing staff to wipe down interior surfaces without awkward reach-arounds during daily cleaning in a busy commercial kitchen.
- ✓ Low Power Draw**  
 At 370 watts and 4 amperes on a standard 110V circuit, the unit fits into most existing commercial kitchen electrical layouts without requiring dedicated high-amp wiring.
- ✓ 1-Year Coverage Included**  
 The Frigomax Series Refrigerated Bakery Display Case is sold with a 1-year warranty, providing a defined service period for parts and labor support after installation.

## PRODUCT OVERVIEW

The Frigomax Series Refrigerated Bakery Display Case is a freestanding curved-glass unit designed for commercial kitchens, bakeries, cafés, and restaurants that need to merchandise refrigerated baked goods attractively while maintaining food-safe temperatures.

The case holds 13.0 cubic feet of interior space within a footprint of 26.8" (D) x 35.4" (W) x 55.1" (H), making it a compact yet high-capacity option for counter-level or floor-level bakery displays. The stainless steel interior supports sanitation requirements in active food-handling environments, and the included leg levelers allow stable placement on uneven surfaces.

Temperature is maintained between 36°F and 46°F, suitable for refrigerated pastries, cakes, and similar bakery items. The unit uses R-290 refrigerant and features automatic defrost, reducing hands-on maintenance during service hours. LED lighting illuminates displayed items clearly without adding significant heat load, while the double tempered glass curved front—with a front glass panel that swings up for easy cleaning access—supports both visibility and hygiene routines.

Running at 110V / 60Hz and drawing 4 amperes at 370 watts, this unit is compatible with standard commercial kitchen electrical circuits. It carries ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications and is backed by a 1-year warranty.
