WARRANTY

1 Year Limited Warranty

SPECIAL FEATURES

- **Stainless Steel Build**
  Stainless steel material supports routine cleaning and repeated handling in commercial kitchen refrigeration areas.
- **Silver Finish**
  Silver color aligns with stainless steel appliances for a uniform look across restaurant equipment.
- **Door Hinge Type**
  Defined as a door hinge for mounting or replacing door hardware on compatible units.
- **Up-Right Orientation**
  Up-right hinge type matches doors that open toward the upper right on reach-in refrigerators and freezers.
- **Refrigeration Application**
  Specified for reach-in refrigerators and freezers used in foodservice and commercial kitchen storage.
- **Limited Warranty**
  Includes a 1-year limited warranty by the manufacturer for documented service coverage.

PRODUCT OVERVIEW

The Medal Equipment door hinge is designed for reach-in refrigerators and freezers used in commercial kitchen environments such as restaurants, cafés, and foodservice storage areas. It functions as a door hinge type component for mounting or replacing doors on compatible refrigeration equipment. The design supports stable door movement during daily food handling and storage activities.

This hinge is constructed from stainless steel, forming a rigid structure suited to repeated opening and closing cycles. The material aligns with common commercial kitchen cleaning routines and sanitation practices. The silver color matches stainless steel appliances and fixtures, maintaining a consistent and neutral appearance across installed refrigeration units.

The hinge features an up-right hinge type, indicating the door opens toward the upper right side when installed. This orientation supports correct placement on reach-in refrigerators and freezers designed for this specific swing direction. The defined hinge type assists technicians during installation, servicing, and replacement procedures in busy kitchen environments.

Manufactured by Medal Equipment, this component serves as a replacement or fitting part for compatible foodservice equipment. It is supplied as a single unit for direct installation where required. It includes a 1-year limited warranty by the manufacturer, providing stated coverage for the specified service period.
