PRODUCT OVERVIEW

The ChefPro Series Conveyor Toaster is designed for commercial kitchen operations handling bagels, bread, and toast. It features 304 stainless steel construction with a silver finish, supporting structured food preparation environments. The unit measures 14.6" (W) x 20.5" (D) x 15.2" (H), aligning with countertop installation. It operates on 110 V electric power with a wattage of 1900 W for consistent heating in restaurant settings.

This conveyor toaster is built with heavy-duty commercial construction, supporting repeated use in food service operations. It includes 3 baking modes for bread, buns, and standby, along with 7 heating levels for controlled operation. The unit features front and rear discharge options, supporting flexible placement and workflow in commercial kitchen environments.

The toaster supports a production capacity of up to 450 slices per hour, aligning with high-volume commercial kitchen requirements. It includes a removable crumb tray, supporting cleaning and maintenance routines. The unit also includes 1 food clip and 2 storage boxes, aligning with structured food handling and accessory storage needs.

This unit features non-slip feet, supporting stable countertop placement during operation. It includes built-in air vents for heat dissipation, supporting temperature management. The toaster is designed in a modern style under the ChefPro Series and includes a 1-year warranty by the manufacturer, defining coverage terms for commercial kitchen use.
