PRODUCT OVERVIEW

The ChefPro Series Fried Food Warmer is suitable for restaurants, cafés, foodservice counters, and other commercial kitchen operations. It features stainless steel construction with a silver finish. The countertop design measures 22.5" (L) x 13" (W) x 19.75" (H) and is intended for countertop installation.

This electric fried food warmer operates on 120 V, 940 W, 7.8 A, 60 Hz, and single-phase power. It uses infrared radiant heat as the heating source. The unit includes a NEMA 5-15P plug with a 6 ft power cord for electrical connection.

The warmer is designed with a 2 in hotel pan for holding fried food. It features a 40-watt light bulb, stainless steel heat reflectors, and an on/off switch. These specifications are provided for food holding applications in commercial kitchen environments.

The unit is part of the ChefPro Series and is CE Certified. It includes a 1-year limited warranty by the manufacturer. The warmer is supplied as an electric countertop fried food warmer for commercial kitchen food holding applications.
