PRODUCT OVERVIEW

The ChefPro Series Enclosed Base Open Front Table is designed for commercial kitchens, food preparation areas, and restaurant operations requiring structured work and storage space. Constructed with stainless steel in a silver finish, it features a 48" (L) x 30" (W) x 42" (H) configuration. The unit includes a 6-inch backsplash and a 36-inch work surface height for food handling and prep applications in foodservice environments.

The ChefPro Series Open Front Table is built using 16 gauge Type 304 stainless steel tabletop with 18 gauge 430 stainless steel body construction for commercial kitchen use. It supports a topshelf capacity of 690 lbs, undershelf capacity of 420 lbs, and mid shelf capacity of 260 lbs for structured storage and workflow organization in food preparation areas.

The ChefPro Series Enclosed Base Table features an adjustable mid shelf with dimensions of 46 1/2" (L) x 27 5/16" (W) for storage flexibility in commercial kitchen environments. It includes four sturdy legs with adjustable feet for installation stability and structured placement in foodservice operations.

The ChefPro Series Open Front Table is NSF Certified for commercial kitchen use and includes a 90 days limited warranty by the manufacturer. It is designed without doors for open access workflow and supports structured food preparation environments. The shipping weight is 162 lb for handling and installation planning.
