SPECIAL FEATURES

- Capacity**
 A 21 cubic foot interior with three adjustable epoxy-coated shelves provides organized, flexible storage for perishable ingredients in a commercial kitchen.
- Bottom-Mounted Compressor**
 The bottom-mounted 1/5 HP compressor with EC fan motor and circulating air system supports consistent temperature distribution throughout the refrigerator cabinet.
- Self-Closing Door &**
 The solid self-closing door with a 90-degree stay-open feature and included locks and keys supports both operational convenience and access control in a restaurant environment.
- Stainless Construction**
 The stainless steel interior and exterior, combined with a galvanized sheet back, offer a durable and easy-to-clean surface suited for daily food service use.
- Electronic Temperature Control**
 An electronic control system maintains a precise temperature range of 33°F to 41°F, keeping food at safe holding temperatures for commercial kitchen standards.
- Mobile-Ready Casters**
 Pre-installed heavy-duty casters with brakes allow the unit to be repositioned as needed and locked securely in place on the commercial kitchen floor.

PRODUCT OVERVIEW

The Frigomax Bottom-Mounted Series 27" Reach-In Refrigerator is a single-section, solid-door unit suited for commercial kitchens, restaurants, cafes, and food service operations that require reliable refrigerated storage in a compact footprint.

Built with a stainless steel interior and exterior plus a galvanized sheet back, this unit measures 27"W x 32-1/16"D x 83-1/4"H, fitting standard kitchen line setups. Its 21 cu. ft. capacity includes three adjustable epoxy-coated shelves for flexible food storage. The solid self-closing door features a 90° stay-open function for hands-free loading, with keyed locks included for added security.

The electronic control system maintains a temperature range of 33°F to 41°F, suitable for perishable food handling in commercial kitchen environments. A bottom-mounted 1/5 HP compressor paired with a new circulating air system and EC fan motor supports consistent cold air distribution throughout the cabinet. Pre-installed heavy-duty casters with brakes allow for straightforward repositioning and secure placement on the kitchen floor.

The unit operates on 115V/60Hz single-phase power, draws 1.7 amperes, and uses a NEMA 5-15P plug, making it compatible with standard commercial kitchen electrical outlets without special wiring requirements.
