### SPECIAL FEATURES

- Capacity**  
 The 46 cubic foot interior across two sections provides substantial frozen storage volume for high-volume commercial kitchen operations.
- Electronic Temperature Control**  
 An electronic temperature controller maintains the freezer within a 0°F to -8°F range for consistent frozen food storage.
- ETL Certified for**  
 ETL Listed and ETL Sanitation Listed certifications confirm the unit meets recognized safety and sanitation standards for commercial food service use.
- Glass Door Visibility**  
 Two swing-style doors with two layers of tempered glass allow kitchen staff to view stored contents without opening the unit.
- EC Fan Motor**  
 The EC fan motor is designed for efficient continuous operation, supporting extended daily use in commercial kitchen environments.
- 1-Year Warranty Coverage**  
 This Reach-In Freezer is backed by a 1-year warranty, providing documented coverage for commercial kitchen purchasers.

# PRODUCT OVERVIEW

Frigomax Series 54-inch Reach-In Freezer is a freestanding, two-section commercial freezer designed for restaurants, cafeterias, and food service operations requiring reliable below-zero frozen storage. With a 46 cubic foot capacity and two swing-style tempered glass doors, this unit gives kitchen staff clear visibility of stored inventory without opening the doors.

Measuring 32 1/16" (L) x 54 1/8" (W) x 83 1/4" (H), this stainless steel unit fits standard commercial kitchen layouts while offering a generous internal footprint across two sections. The six adjustable, epoxy-coated shelves provide flexible storage configuration suited to varying container sizes and food service needs. Keyed door locks and included locks and keys support access control in shared kitchen environments.

The bottom-mounted 1/2 horsepower compressor operates on 115V/60Hz single-phase power, drawing 5.3 amperes through a NEMA 5-15P plug, making it compatible with standard commercial kitchen electrical circuits. Electronic temperature control maintains a consistent range of 0°F to -8°F, appropriate for storing frozen food items in compliance with food safety standards. The EC fan motor contributes to efficient operation across extended service hours.

Self-closing doors with a 90-degree stay-open feature support hands-free loading during busy service periods, while the two-layer tempered glass door construction adds structural durability to the door assembly. Four casters with brakes allow the unit to be repositioned on the kitchen floor and locked in place once sited. The Frigomax Series Reach-In Freezer carries ETL Listed and ETL Sanitation Listed certifications, and is backed by a 1-year warranty.
