1 Year Warranty

SPECIAL FEATURES

- Full Product Visibility**
 The swing glass door lets staff and customers view stored items at a glance, reducing door-open time in a busy restaurant or deli setting.
- Low Power Draw**
 Drawing only 2.6 amperes at 115V on a standard NEMA 5-15P outlet, the unit integrates into existing commercial kitchen electrical circuits without requiring dedicated wiring.
- ETL Certified for Food**
 ETL Listed and ETL Sanitation Listed certifications confirm the unit meets established safety and sanitation requirements recognized by commercial kitchen health inspectors and operators.
- Compact Floor Footprint**
 At 27 1/2" wide and 26 5/8" deep, this freestanding merchandiser fits into tight spaces without sacrificing the 16.9 cu ft interior capacity needed for a stocked service line.
- Flexible Shelf Configuration**
 Four adjustable heavy-duty epoxy-coated shelves allow kitchen and floor staff to reconfigure storage layouts to accommodate containers, bottles, or packaged foods of varying heights.
- Reduced Maintenance Demands**
 The automatic defrost cycle handles ice buildup without manual intervention, keeping the electronic temperature control stable between 33°F and 41°F throughout operating hours.

PRODUCT OVERVIEW

The Frigomax Series single-section commercial merchandiser refrigerator is designed for restaurants, cafes, delis, and retail food service operations that need reliable front-of-house or back-of-house cold storage with product visibility through a full swing glass door.

At 27 1/2" (W) x 26 5/8" (D) x 77 5/8" (H), this freestanding unit fits into tight floor spaces while delivering 16.9 cubic feet of usable interior capacity across four adjustable heavy-duty epoxy-coated shelves — allowing staff to organize beverages, prepared foods, or packaged goods without restricting airflow or access.

Temperature is managed electronically within a 33°F to 41°F range, supported by an automatic defrost cycle that reduces manual maintenance demands during service hours. Interior LED lighting keeps displayed items clearly visible, and the right-hinge swing glass door allows straightforward single-hand access. The unit draws 2.6 amperes at 115V, 60Hz, single-phase power and ships with a NEMA 5-15P plug for standard wall outlet connection.

The coated steel exterior provides a durable finish suited to active commercial kitchen and front-of-house environments. This merchandiser carries both ETL Listed and ETL Sanitation Listed certifications, confirming it meets recognized safety and sanitation standards for commercial food service. A 1-year warranty is included with the unit.
