SPECIAL FEATURES

- High-Visibility Display**
 The open multideck, door-free design gives shoppers and kitchen staff a clear, unobstructed view of all 32.3 cubic feet of refrigerated contents, supporting faster product selection.
- Low-GWP Refrigerant**
 R-290 refrigerant is a natural hydrocarbon option with a low global warming potential, aligning the unit with current environmental standards in commercial kitchen operations.
- Certified for Commercial Use**
 ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications confirm the unit meets established electrical safety, sanitation, and energy requirements for food handling environments.
- Consistent Holding Temps**
 Ventilated cooling circulates air evenly across the cabinet, holding temperatures between 30.2 and 44.6 degrees Fahrenheit to keep dairy, deli, and beverage items within safe holding ranges.
- Bright Shelf Lighting**
 LED interior cabinet lighting combined with under-shelf LED lighting illuminates every shelf level, making products easier to spot and reducing energy consumption versus conventional lighting.
- Included Warranty Coverage**
 A 1-Year Warranty is included, providing a defined coverage period for commercial kitchen buyers and food retail operators after installation.

PRODUCT OVERVIEW

The Frigomax Series 77" Horizontal Air Curtain Merchandiser is an open multideck display case designed for commercial kitchens, grocery stores, convenience stores, and food retail environments that need high-visibility refrigerated merchandising without a door barrier.

The cabinet uses ventilated cooling with R-290 refrigerant and maintains a temperature range of 30.2 to 44.6 degrees Fahrenheit, suitable for dairy, beverages, deli items, and prepared foods. At 32.3 cubic feet, the unit holds a substantial volume between restocks. The freestanding installation measures 77" (W) x 35.6" (D) x 59.1" (H), fitting retail and commercial kitchen floor plans.

The interior features LED cabinet lighting and under-shelf LED lighting throughout, improving product visibility and reducing energy draw compared to fluorescent alternatives. Power draw is rated at 1,530 watts and 31.2 amperes at 110V, 60Hz. Round side panels give the display a finished, clean-edge profile from customer-facing angles. Leg levelers allow for stable freestanding placement on uneven floors.

This merchandiser carries ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications, meeting recognized standards for electrical safety, sanitation, and energy efficiency relevant to commercial food handling environments. A 1-Year Warranty is included with purchase.
