- ✓ Coffee Holding Temperature**
 The warmer plate operates within a temperature range of 80°F to 84°F for coffee holding applications.
- ✓ Warranty Included**
 It includes a 1-year limited warranty by the manufacturer.

PRODUCT OVERVIEW

The ProKitchen Series Decanter Warmer Plate is a countertop coffee warming unit designed for cafés, restaurants, hotels, and commercial kitchen beverage stations. Constructed from stainless steel with a silver finish, it features a double burner configuration for holding multiple coffee decanters during service.

The unit operates on 120 V electric power, 1 phase, 60 Hz, with a power rating of 200 W and 1.66 A. A NEMA 5-15P plug is included for electrical connection, making it suitable for countertop placement in commercial kitchen and beverage service environments.

The warmer plate features independently controlled warming surfaces with independent toggle controls. The coffee pot warmer design allows separate operation of each burner, supporting flexible beverage holding during service periods.

The unit maintains a temperature range of 80°F to 84°F and measures 14.96" (L) x 8.66" (D) x 3.07" (H). It is ETL Listed, UL Listed, and cETLus Listed. It includes a 1-year limited warranty by the manufacturer.
