WARRANTY

1 Year Warranty

SPECIAL FEATURES

✓ Consistent Cold Holding

The 36°F to 46°F operating range keeps perishable baked goods, cream pastries, and chilled confections at safe display temperatures throughout a full service day in a commercial kitchen.

✓ Clear Merchandise Visibility

The curved double tempered glass front gives customers and staff an unobstructed 180-degree view of displayed items, supporting self-directed purchasing decisions at the point of sale.

✓ Meets Key Safety Standards

The unit is ETL Listed, ETL Sanitation Listed, and DOE Compliant, confirming it meets recognized electrical safety, food sanitation, and energy efficiency requirements for commercial food service use.

✓ Large Display Capacity

The 21.9 cu ft stainless steel interior accommodates a broad assortment of trays and tiered displays, reducing the need for frequent restocking during busy bakery or café service hours.

✓ Easier Daily Cleaning

The front glass swings up for easy cleaning access, allowing staff to wipe down interior surfaces quickly without disassembling the case or interrupting service flow.

✓ Covered by Warranty

This display case is backed by a 1-year warranty, providing a defined service period for a commercial kitchen operator purchasing for a bakery, café, or restaurant front-of-house display.

PRODUCT OVERVIEW

The Frigomax Series Refrigerated Bakery Display Case is a freestanding curved-glass unit designed for commercial kitchens, bakeries, cafés, and restaurant service counters that need to merchandise chilled baked goods, pastries, and confections at controlled temperatures.

The cabinet maintains a temperature range of 36°F to 46°F, supported by an automatic defrost system and R-290 refrigerant, making it suitable for displaying cream-filled pastries, cakes, and other perishable items that require consistent cold holding. The 21.9 cu ft stainless steel interior provides substantial display capacity for high-volume service environments, while the unit draws 5.2 amperes at 110V/60Hz with a power consumption of 580 watts.

The curved double tempered glass front delivers a clear, unobstructed view of displayed items from multiple angles, and the front glass swings up for easy cleaning access reducing the time staff spend maintaining the case between service periods. Leg levelers are included to allow stable installation on uneven floors common in older commercial kitchen and retail environments.

Measuring 26.8" (L) x 59.1" (W) x 55.1" (H), the unit fits along standard service counters and display runs. LED lighting illuminates the interior to highlight merchandise without generating excess heat. The Frigomax Series Refrigerated Bakery Display Case is ETL Listed, ETL Sanitation Listed, and DOE Compliant, meeting key regulatory standards for commercial food service operations. This unit is covered by a 1-year warranty.
