It includes a 1-year warranty by the manufacturer for food service equipment applications.

PRODUCT OVERVIEW

The ChefPro Series Glass Rack Extender is a polypropylene rack extender designed for commercial kitchen cleaning supplies and warewashing systems. Proudly Made in America, this unit is classified as a glass rack extender and sold as 1/each. It features 16 compartments to align with compatible glass racks during washing and storage. The extender measures 19.75" (L) x 19.75" (W) x 1.78" (H), supporting height adjustment within dish room setups.

Constructed from polypropylene, the extender is structured for repeated use in commercial kitchen cleaning cycles. The blue color supports visual organization within warewashing and storage areas. It features a clear cut finish that aligns with structured glass placement. The 16 compartments maintain separation between glasses during automated washing and handling procedures in restaurant operations.

With a product weight of 1 lb, this glass rack extender supports handling and placement during busy food service operations. It is NSF Listed, reflecting compliance with recognized food equipment standards for commercial kitchen environments. The dishwasher safe feature supports integration with automated warewashing systems commonly used in restaurants and hospitality facilities. Usage is specified for cleaning supplies applications.

The ChefPro Series supports coordinated warewashing and glass handling solutions in restaurants, catering kitchens, and hospitality establishments. Its square footprint of 19.75" width and depth aligns with standard commercial dish rack sizing. The polypropylene construction supports structured workflow in glass storage areas. It includes a 1-year warranty by the manufacturer.
