SPECIAL FEATURES

- ✓ **Durable Steel Construction**
Stainless steel build supports use in commercial handwashing areas.

✓ **Convenient Dispenser Setup**
Built-in dispensers support handwashing needs at the sink.

✓ **Certified Compliance**
NSF status aligns with commercial sanitation standards.
- ✓ **Free-Standing Flexibility**
Free-standing design allows placement without built-in installation.

✓ **Underbar Utility**
Underbar hand sink type suits bar and beverage service stations.

PRODUCT OVERVIEW

The ChefPro Series CPHSUB-12X24-DISP Underbar Hand Sink is ideal for commercial kitchens, prep areas, and utility spaces needing a compact, free-standing workstation with a single compartment. Built with stainless steel legs and a removable perforated top, it provides a durable surface suited for routine foodservice tasks. It features a 1 bowl, 1 compartment setup sized for focused prep work.

The dual backsplash design includes a 6.5 in backsplash to help contain splashes and maintain cleaner surrounding areas. Adjustable thermoplastic bullet feet support leveling on uneven floors, while the 12 in (W) x 24 in (D) footprint fits efficiently into tight service layouts or smaller workstations without occupying excess space.

NSF Certified construction aligns with commercial food safety and sanitation requirements, making it suitable for regulated professional environments. Designed as a free-standing installation, this unit supports flexible placement in kitchens, back-of-house prep zones, and utility areas where a compact compartment setup is needed.
