WARRANTY

Parts & Labor: 2 Years

Compressor: 6 Years

SPECIAL FEATURES

- ✔ **Commercial Freezer Storage Capacity**
Provides 23 cu. ft. storage space with a single glass door design for frozen product merchandising.
- ✔ **Wide Freezing Temperature Range**
Maintains temperatures between -8°F to 0°F for frozen foods, seafood, desserts, and packaged products.
- ✔ **Efficient Cooling Performance**
Equipped with a high-performance compressor, ventilated cooling system, and anti-corrosion coated copper evaporator.
- ✔ **Digital Temperature Management**
Electronic temperature control with digital controller supports straightforward monitoring and adjustment.
- ✔ **Commercial Certifications**
ETL Listed, ETL Sanitation Listed, NSF Approved, and DOE Compliant for commercial operation standards.
- ✔ **Durable Stainless Steel Construction**
Built with stainless steel exterior and interior material for commercial food service environments.
- ✔ **Triple-Layer Glass Door Design**
Triple-layer tempered glass door supports product visibility while helping maintain internal temperatures.
- ✔ **Integrated Functional Features**
Includes self-closing door, energy saving mode, high-quality cooling fan, and 90° stay-open door configuration.
- ✔ **Flexible Interior Organization**
Includes 3 adjustable epoxy-coated steel wire shelves with 150 lb load capacity per shelf.
- ✔ **Manufacturer Warranty Coverage**
Includes a 2-year parts & labor warranty and 6-year compressor warranty for commercial service support.

PRODUCT OVERVIEW

The Platinum Frost Series commercial reach in freezer merchandiser is designed for foodservice operators storing and displaying frozen items in a commercial kitchen. It supports ice cream, pizza, seafood, vegetables, fruits, and packaged appetizers in restaurant and retail settings.

Constructed with a stainless steel exterior and interior in a silver finish, the freezer features a single swing glass door made of triple-layer tempered glass. The freestanding design includes LED interior lighting for clear visibility.

The unit offers a 23 cu.ft capacity and measures 27" (W) x 31.5" (D) x 83.3" (H), with a temperature range of -8°F to 0°F controlled by an electronic digital temperature controller. Three epoxy-coated steel wire shelves support up to 150 lbs per shelf.

It operates on 115 V, 60 Hz, single-phase power using R290 hydrocarbon refrigerant with a bottom-mounted condenser and high performance compressor. Additional features include automatic defrost, ventilated cooling, self-closing door, preinstalled heavy-duty casters with brakes, required certifications, and a 2-year parts and labor warranty with 6 years on the compressor.
