WARRANTY

1 Year Limited Warranty

SPECIAL FEATURES

- **Reach-In Compatibility**
  Specified for reach-in refrigerators and freezers, supporting condenser airflow in commercial kitchen refrigeration systems.
- **Current Specification**
  The 0.35 A rating reflects the listed electrical load for proper operation of the condenser fan motor.
- **AC Power Type**
  AC power operation supports standard commercial kitchen electrical configurations.
- **Standard Voltage Rating**
  The 115 V specification aligns with common electrical setups in foodservice refrigeration equipment.
- **Power and Speed**
  The 26 W wattage and 1550 RPM fan speed match the technical requirements for airflow in refrigeration units.
- **Warranty Coverage**
  It includes a 1-year warranty by the manufacturer, supporting scheduled maintenance for refrigeration equipment.

PRODUCT OVERVIEW

The Medal Equipment condenser fan motor is designed for commercial kitchen refrigeration, specifically for reach-in refrigerators and freezers used in food handling environments. It supports air circulation within the condenser to maintain consistent cooling performance.

This motor operates on 115 V with a current rating of 0.35 A and a 60 Hz frequency, matching standard electrical setups in commercial kitchen refrigeration systems.

The unit features AC power type operation, a 26 W wattage rating, and a fan speed of 1550 RPM, aligning with technical requirements for condenser airflow in commercial refrigeration equipment.

Supplied as a condenser fan component, it is intended for replacement or service use and includes a 1-year warranty by the manufacturer, supporting maintenance planning in commercial kitchens.
