WARRANTY

1 Year Limited Warranty

SPECIAL FEATURES

- **Wide Voltage Input**
  100/240 V input range with 50/60 Hz frequency suits commercial kitchen power systems.
- **DC Power Output**
  13VDC / 1.2A output supports compatible LED lighting components.
- **Single Unit Supply**
  Provided as one unit for servicing or replacement needs.
- **Defined Current Rating**
  0.4 A input rating provides a clear electrical reference for installation.
- **LED Power Supply Type**
  Listed as an LED power supply for lighting applications in equipment.
- **Limited Warranty**
  Includes a 1-year limited warranty by the manufacturer as specified.

PRODUCT OVERVIEW

The Medal Equipment LED power supply is designed for commercial kitchen equipment that uses low-voltage LED lighting in restaurants, foodservice counters, and refrigerated units. Classified as an LED power supply, it functions as an electrical conversion component for lighting systems. The unit supports routine replacement and servicing in commercial kitchen environments.

This power supply operates with an input voltage range of 100/240 V and a frequency of 50/60 Hz, aligning with standard electrical systems used in commercial kitchens. The input current is rated at 0.4 A, providing a defined reference for electrical connection and compatibility during installation.

The unit delivers a power output of 13VDC / 1.2A, converting incoming AC power to the specified DC output for LED lighting use. This output specification supports connection to compatible LED components used in food handling and storage equipment. The type is listed specifically as an LED power supply.

Manufactured by Medal Equipment, this power supply is supplied as a single unit for direct installation or replacement. It is intended for use with LED lighting systems in commercial kitchen equipment. It includes a 1-year limited warranty by the manufacturer, providing stated coverage for the defined period.
