1 Year Warranty

SPECIAL FEATURES

- Full-Length Display**
 The 77" straight glass front spans a wide service area, letting staff and customers view the full product spread in a busy bakery or cafe without repositioning.
- Low-Impact Refrigerant**
 The R-290 refrigerant used in this case carries a low global warming potential, supporting refrigeration decisions aligned with current environmental and regulatory standards.
- Standard Circuit Compatible**
 At 110V, 60Hz, and 6.5 amperes, this case plugs into a standard commercial kitchen outlet without requiring a dedicated high-voltage electrical circuit.
- Consistent Chill Zone**
 A temperature range of 32 to 41°F keeps cream-filled pastries, mousse cakes, and other delicate chilled goods at safe holding temperatures throughout service hours in a commercial kitchen.
- Certified for Commercial Use**
 ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications confirm the unit meets recognized safety, sanitation, and energy standards for commercial food service environments.
- Backed by Warranty**
 A 1-year warranty is included, giving restaurant and bakery operators a defined coverage period for the unit from the date of purchase.

PRODUCT OVERVIEW

The Frigomax Series 77" Dry and Refrigerated Bakery Display Case is a freestanding serve-over counter unit designed for bakeries, cafes, patisseries, and commercial kitchens that need to present both ambient and chilled baked goods in a single, continuous case.

This display case holds 25.5 cubic feet of storage within a straight glass front configuration, allowing customers and staff a clear, unobstructed view of displayed items. The glass shelving throughout the interior keeps the presentation clean and allows light to pass through each level evenly. Built-in LED lighting illuminates the full cabinet, making pastries, cakes, and chilled products easy to identify from the front counter.

The unit operates on 110V/60Hz and draws 6.5 amperes at 540 watts, compatible with standard commercial kitchen circuits without a dedicated high-voltage line. The refrigeration section maintains 32 to 41 degrees Fahrenheit, suitable for cream-filled pastries, cheesecakes, mousses, and other temperature-sensitive baked goods. Refrigerant type is R-290, a low global warming potential (GWP) option used in modern commercial refrigeration.

At 77 inches wide, 37.0 inches deep, and 47.2 inches tall, the case is sized for front-of-house installation in retail bakeries and restaurant service counters. The freestanding installation type requires no built-in cabinetry, simplifying placement and repositioning. This unit ships and sells as one complete case. It carries ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications. A 1-year warranty is included with purchase.
