Single oven produces 27,000 BTU/hr for consistent baking and roasting.
- ✓ **Rack Flexibility**

Includes two nickel oven racks for adjustable cooking options.
- ✓ **Safe Handling**

Heavy-duty knobs with heat-protection grips enhance safety during operation.
- ✓ **Certified Quality**

CSA Certified, NSF Approved, and ETL Listed for commercial safety.

PRODUCT OVERVIEW

The KitchenCore Series KCGR36 commercial gas range is designed for heavy-duty cooking applications in restaurants, hotels, and catering kitchens. It combines multiple burners with an oven to handle large-scale food preparation.

This commercial gas range features 6 cast iron burners, each rated at 26,300 BTU/hr, giving a total cooking output of 184,800 BTU/hr. The range also comes with one gas oven that operates at 27,000 BTU/hr, supporting a temperature range from 212°F to 572°F for versatile baking and roasting.

The unit comes with an oven interior, measuring 22.5 in (W) × 26.5 in (D) × 14.5 in (H), equipped with two nickel oven racks. It includes 4 heavy-duty casters that allow easy mobility in commercial kitchens. The gas connection size is 3/4 in, and the unit runs on liquid propane.

This unit is equipped with manual controls, heavy-duty knobs with heat protection grips, and a stainless steel body in a silver finish for durability. The overall dimensions are 36 in (W) × 32 in (D) × 61.4 in (H), and the certifications include CSA, NSF, and ETL standards. The range is backed by a 1-year parts and labor warranty from the manufacturer.
