 Four casters, including (2) 5" swivel casters and (2) 10" fixed casters, along with an integrated handle, support movement within commercial kitchen work areas.
- NSF Certified**
 The dish dolly is NSF Certified for commercial kitchen and foodservice applications.

PRODUCT OVERVIEW

The ChefPro Series dish dolly is suitable for restaurants, hotels, catering operations, and other commercial kitchen dish handling areas. It is made of gray polyethylene and measures 42.94" (L) x 28.31" (W) x 31.5" (H). The dish dolly features an adjustable 4- to 8-compartment design with 6 dividers.

The dish dolly features a poker chip design with quick-adjust arms for adjustable capacity. It accommodates plates ranging from 4.5" to 13" in diameter and holds 180–200 plates in 4 stacks or 360–400 plates in 8 stacks.

The unit includes 4 casters, consisting of (2) 5" swivel casters and (2) 10" fixed casters, along with an integrated handle for movement. A vinyl cover is included for covering stored dishes.

The ChefPro Series dish dolly is NSF Certified and includes gray polyethylene construction for commercial kitchen dish storage and transport. The adjustable compartment configuration, included dividers, and vinyl cover match the listed specifications.
