Stainless steel and PC materials support repeated use in chilled beverage service.
- ✓ **Consistent Cooling Range**
Temperature range of 26.6°F to 44.6°F supports chilled beverage holding.
- ✓ **Standard Power Compatibility**
110 V, 8 A, 900 W, 60 Hz setup suits common electrical service.
- ✓ **Warranty Coverage**
Includes a 1-year limited warranty for covered protection.
- ✓ **Large Holding Capacity**
12 gal capacity with 4 gal bowl capacity supports high-volume dispensing.
- ✓ **Automatic Control Function**
Automatic control type supports regulated cooling operation.
- ✓ **Certified Compliance**
FCC Certified status aligns with electrical safety requirements.

PRODUCT OVERVIEW

The ChefPro Series CF12GSM Commercial Slushy Machine is ideal for beverage counters, buffets, cafés, and service stations needing chilled dispensing for cold drinks or liquid products. Made in China with a silver finish, it offers a 12 gal total capacity supported by 4 gal bowl capacity per container. Dimensions measure 21.5 in (L) x 18.7 in (W) x 27.6 in (H), fitting comfortably on counters where cold display and dispensing are required.

Operating at 110 V, 8 A, 900 W, and 60 Hz, this unit maintains temperatures from 26.6°F to 44.6°F using automatic control to support consistent cooling. The stainless steel and PC material combination provides a durable chilled service setup aligned with beverage holding needs in commercial environments.

FCC Certified construction supports electrical compliance. Built for routine chilled dispensing tasks across service settings, it includes a 1-year limited warranty for covered protection during regular operation.
