WARRANTY

2 Years Warranty

SPECIAL FEATURES

- ✔ **Extended Reach Length**
The unit includes a 60 in hose length suitable for extended gas line routing in commercial kitchen setups.
- ✔ **Rotational End Design**
It features a 360° rotational end supporting adjustable positioning during installation.
- ✔ **Complete Installation Kit**
It includes hose, quick disconnect, two elbows, restraining cable, and full port valve.
- ✔ **Dual Gas Compatibility**
It supports natural gas and LP compatible systems for flexible installation requirements.
- ✔ **Braided Steel Construction**
It is built with 304 stainless steel braided hose with PVC coating for structural support.
- ✔ **Certified Compliance**
It is cCSAus Sanitation Approved for US and Canada and NSF Approved for commercial kitchen use.

PRODUCT OVERVIEW

The ProKitchen Series Gas Hose Connector Kit is a commercial kitchen gas connection accessory designed for gas line integration in restaurants, hotels, and food service operations. It is built with stainless steel braided hose and PVC coating in a yellow finish, supporting structured gas supply connectivity in commercial kitchen installations. The system is compatible with both natural gas and LP gas configurations.

The hose is designed with a 60 in length and 0.75 in diameter, manufactured using 304 stainless steel braided construction for mechanical strength in gas handling applications. It includes a 360° rotational end, supporting flexible alignment during installation in commercial kitchen layouts.

The kit includes hose, quick disconnect, two elbows, restraining cable, and full port valve, providing a complete gas connection assembly for equipment setup. It is certified cCSAus Sanitation Approved for US and Canada and NSF Approved for compliance in commercial kitchen environments.

The unit is supplied as 1/Each and includes a 2-year warranty. It is designed for 3/4" gas inlet size group connections and supports natural gas and LP compatible systems used across commercial kitchen equipment installations.
