SPECIAL FEATURES

- ✓ **High Ice Production**
Produces 350 lbs. of full cube ice every 24 hours to meet commercial demand.

✓ **Complete Package Solution**
Includes drain pipe, ice scoop, and water filter for immediate use.

✓ **Smart Automation**
Auto shut-off when bin is full and adjustable ice thickness controls.

✓ **Convenient Power Setup**
Runs on standard 115V, 60 Hz, 1-phase power with NEMA 5-15P plug and 6 ft cord.

✓ **Stable Installation**
Freestanding unit with adjustable leveling feet for uneven floors.
- ✓ **Large Storage Capacity**
Integrated bin holds up to 235 lbs. of ice, ensuring supply during peak service.

✓ **Reliable Operation**
Air-cooled refrigeration with R290 refrigerant supports consistent performance.

✓ **Easy Maintenance**
Self-cleaning system streamlines upkeep and promotes hygienic ice production.

✓ **Durable Build**
Stainless steel construction designed for professional foodservice use.

✓ **Warranty Coverage**
Warranty Coverage

PRODUCT OVERVIEW

The CEIC235 commercial ice machine with bin is designed for foodservice operations needing a steady supply of ice. Constructed from stainless steel, it produces 350 lbs. of full cube ice in 24 hours and stores up to 235 lbs. in the integrated bin. It includes a drain pipe, ice scoop, and water filter to support safe and convenient commercial ice handling.

This commercial ice machine runs on 115 V, 60 Hz, 1 phase power using a NEMA 5-15P plug and a 6 ft power cord. It operates with an air-cooled refrigeration system and uses R290 refrigerant for efficiency. The unit features an auto shut-off when the storage bin is full, adjustable ice thickness, and a self-clean system for easy maintenance in continuous commercial use.

The overall product dimensions are 22 in (W) x 32 in (D) x 69 in (H). It is designed for freestanding installation and comes with adjustable leveling feet to ensure stability on uneven surfaces. The unit comes with a 6-month warranty covering parts and labor.
