PRODUCT OVERVIEW

The PolarBox Series walk-in cooler is a commercial refrigeration unit built for indoor and outdoor cold storage applications. Proudly Made in America, it features durable 24-gauge white galvanized steel construction for food service environments. The unit includes 4-inch polyurethane insulation with R-28 thermal resistance for efficient temperature control. Dimensions measure 315" (L) x 79" (W) x 87" (H), with a nominal size of 26 ft depth and 7 ft height.

The enclosure is built with a modular cam-lock, tongue & groove hinge system that supports panel alignment during installation. A single solid swing door with 77 in height is integrated into the structure. The door includes a self-closing flush-mounted design with keyed lock access for controlled entry in commercial kitchen storage areas. One-door configuration supports organized access to refrigerated inventory and food supplies.

Top mounted refrigeration positions the cooling system above the enclosure structure. The refrigeration system uses R-448A refrigerant and includes a condensing unit and evaporator as part of the setup. Electrical specification includes 208/230 V, 1 phase, 60 Hz with hardwired plug type for fixed commercial installation. The refrigeration layout supports commercial kitchen cold storage requirements.

The cooler includes a standard galvanized steel floor with with-floor construction for structural support. Certifications include UL Listed US, NSF Listed, and DOE compliance for commercial kitchen applications. It belongs to the PolarBox Series and is supplied as 1/Each. Warranty coverage includes 10-year panel, 1-year door parts, 2-year compressor and parts, and 1-year labor on refrigeration unit.
