1 Year Warranty

SPECIAL FEATURES

- ✔ **Checkout Counter Ready**
At 19.7" wide and 19.7" deep, the mini footprint fits directly on or beside a checkout counter or convenience store aisle without claiming significant floor space.

✔ **Standard Circuit Compatible**
Operating at 110V / 60Hz and 9.4 amperes, the unit connects to a standard commercial outlet without requiring an electrician to install dedicated high-amperage wiring.

✔ **Lower-Impact Refrigerant**
The R290 hydrocarbon refrigerant has a significantly lower global warming potential than conventional HFC options, aligning with current commercial kitchen sustainability practices.
- ✔ **High Beverage Capacity**
The cabinet is sized to hold up to 72 standard canned beverages, reducing how frequently staff need to restock during a busy service period.

✔ **ETL and DOE Certified**
ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications support health inspection compliance and energy-use documentation in a commercial kitchen or retail setting.

✔ **Covered for One Year**
The unit is backed by a 1-Year Warranty, giving buyers a defined service period after purchase for a freestanding commercial merchandiser at this price point.

PRODUCT OVERVIEW

The Frigomax Series Vertical Air Curtain Merchandiser is a compact, freestanding open-front display unit suited for checkout counters, convenience stores, and small-footprint commercial kitchen or retail environments where impulse-buy refrigeration is needed.

The unit measures 19.7" (L) x 19.7" (W) x 53.3" (H) and holds 4.6 cubic feet of refrigerated product, with a stated capacity of up to 72 standard 12 oz canned beverages making it a practical fit for high-turnover grab-and-go displays. The temperature range of 30°F to 45°F maintains chilled beverages and packaged foods within standard commercial cold-holding guidelines.

Powered at 110V / 60Hz and drawing 9.4 amperes at 500 watts, the unit is designed to operate on a standard commercial circuit without requiring dedicated high-amperage wiring. The R290 hydrocarbon refrigerant is an environmentally lower-impact option compared to traditional HFC refrigerants, and the unit carries DOE Compliant status reflecting its energy consumption classification.

The merchandiser ships as a single unit and arrives ready for freestanding placement. Adjustable leg levelers accommodate minor floor irregularities. It holds ETL Listed and ETL Sanitation Listed certifications, supporting compliance documentation for health inspections and commercial kitchen audits.
